

Rob Abshire
Care Coordinator

Hi my name is Robert Abshire I was born and raised in Philadelphia. I attended Frankford High school and then went to ITT Tech for computer networking.

I have had a variety of jobs in the past including managing a custom auto wheel retail store, construction and roofing. I really enjoying playing video games, I am a big sports fan and my favorite pastime is spending time with my family and playing with my children.

My better half's name is Lauren, who is a great friend, wonderful wife and an even better mother. We have three beautiful children together, our son's Brett and Blake and our princess Skye. They are the three most wonderful kids a man can ask for and I would be lost with out them. I believe a man is only as good as the support around him and with my wife and kids I have the best support a man could ask for. My favorite saying is and has always been family first.

I started working for Home Helpers when my old company changed ownership. I came in and everyone here immediately made me feel like family. That to me is awesome! When you can work and be comfortable with everyone around you in a place were everyone cares so much. This is the kind of company I have dreamed about working for. It is very rewarding knowing that on a daily basis you are helping care for people and helping them stay comfortably at home.
