

**Sharon Murphy**  
*Senior Care Coordinator*

I was born in England and came to America in October 2006. My parents emigrated here thirteen years ago and my brother over twenty years ago so it had always been my ambition to come out here myself one day. The opportunity for me came along quicker than I thought when my mom introduced me to a friend she had known for years while I was here on vacation. Two months later I was back here and then married within three months!!! We Brits don't waste any time!!

Home Helpers was the first job I applied for and I love every minute of it. The people are great to work with and I love talking with our clients, they are special people.

I love to read, listen to music and now I have just become a Nanna for the first time, I love to receive pictures of my Grandson, who is back in England.
